Ballet for two generations

“There is a lot of dancing around the house!”. That is how Corina Dumitrescu describes a little bit of her ballet experience with her two daughters, Josephine and Maddie. The three of them take classes at BVC. Corina has been taking our Ballet Class for Adults since May 2018.

BVC: How do you like your ballet classes?

Corina: I love it! It is a great way to keep in shape and work on lean muscles. And this way I get to learn what my daughters do as well, because I never did ballet as a child.

BVC: So is it a common topic at home?

C: Yes, definitely! There is a lot of dancing around the house.

BVC: Would you recommend ballet classes here to other parents?

C: Yes, for sure! It is lots of fun. It is a great way to keep in shape when you have kids.
